

### **Our Philosophy**

At Storm, we strive to provide the best experience for each and every one of our players. It is our job to make lacrosse fun and competitive for all players. We take our job seriously.

We have up to 3 practice opportunities per week to give players the flexibility to play lacrosse as well as have time for other extracurricular activities to become well rounded young women. Players have the flexibility to attend as many practices per week as they would like.

Storm strives to be a full-service lacrosse organization for players of all levels. We want young women on the lacrosse field playing the game that the entire Storm staff loves, while creating positive experiences and opportunities.
